A Proposed Clinical Test of Speech Discrimination, E. James Kreul et al.: 11, September, 536-552.
Psycholinguistic Aspects of Aphasia, Otfried Spreen: 11, September, 467-480.
The Relation of Vibrator Surface Area and Static Application Force to the Vibrator-to-Head Coupling, E. R. Nilo: 11, December, 805-810.
Relations Between Prosodic Variables and Emotions in Normal American English Utterances, George L. Huttar: 11, September, 481-487.
Reply to: "Masking of Auditory Feedback in Stutterers' Speech," Richard Allen Chase and Samuel Sutton: 11, March, 222-223.
Responses to Multiple-Choice Intelligibility Tests, John W. Black: 11, September, 453-466.
The Role of Distinctive Features in Children's Acquisition of Phonology, Paula Menyuk: 11, March, 138-146.
Sensory Modality and Object-Naming in Aphasia, Harold Goodglass et al.: 11, September, 488-496.
Signal Detection Audiometry: An Exploratory Study, Richard A. Campbell and Linda K. Moulin: 11, June, 402-410.
Speaking Fundamental Frequency and Rate Characteristics of Adult Female Schizophrenics, John H. Saxman, and Kenneth W. Burk: 11, March, 194-203.
Spectograms and Babbling, Harris Winitz: 11 December, 882.
Suprathreshold Auditory Adaptation in Normal and Pathologic Ears, Fred Harbert et al.: 11, June, 268-278.
Testing the Significance of the Agreement Among Observers, Martin A. Young and Tom D. Downs: 11, March, 5-17.
Three Psychological Scaling Methods Applied to Language Development, Dorothy Sherman and Franklin H. Silverman: 11, December, 837-841.
Time-Out as a Punishment for Stuttering, Samuel K. Haroldson et al.: 11, September, 560-566.
The Type V Bekesy Pattern: The Effects of Loudness Memory, Karl W. Hattler: 11, September, 567-575.
Unmasking for Pure Tones and Spondees: Interaural Phase and Time Disparities, Raymond Carhart et al.: 11, December, 722-734.
Visual Discrimination and Response Reversal Learning by Aphasic Subjects, Robert H. Brookshire: 11, December, 677-692.
Visual Discrimination of Consonants, Herbert J. Greenberg and Daniel L. Bode: 11, December, 869-874.
Vocal Fry as a Phonational Register, Harry Hollien and John F. Michel: 11, September, 600-604.
Vowel Discrimination of Hearing-Impaired Listeners, Elmer Owens et al.: 11, September, 648-655.

Hearing

ANATOMY AND PHYSIOLOGY

Amplitude Distributions of Cochlear Microphonic Response to an Acoustic Sinusoid in Noise, Donald C. Teas and Gretchen B. Henry: 11, March, 63-76.

Averaged Evoked Responses and Loudness: Analysis of Response Estimates, Gretchen B. Henry and Donald C. Teas: 11, June, 334-342.

Comparative Measurements of Cochlear Apparatus, Makoto Igarashi et al.: 11, June, 229-235.

Effects of Increased Cerebrospinal Fluid on CM Response, R. Michael Feldman: 11, March, 18-32.

Effects of Signal Duration and Rise Time on the Auditory Evoked Potential, Paul H. Skinner and Howard C. Jones: 11, June, 301-306.

Hearing in Mice by GSR Audiometry: I. Magnitude of Unconditioned GSR as an Index of Frequency Sensitivity, Charles I. Berlin et al.: 11, March, 159-168.

Hearing in Mice by GSR Audiometry: II. Magnitude of Unconditioned GSR as a Function of Intensity and Frequency Interactions, Alan Gill and Charles I. Berlin: 11, March, 169-178.

AUDIOLOGY

Audiometric Gelle Test with a New Transducer, Charlene B. Stephens and Godfrey E. Arnold: 11, June, 411-427.

Clinical Measurement of Temporal Auditory Summation, H. N. Wright: 11, March, 109-127.

Cockpit Noise Intensity: Three Aerial Application (Crop-Dusting) Aircraft, Jerry V. Tobias: 11, September, 611-615.

A Comparative Evaluation of Five Speech Discrimination Measures, Jean Hahn Lovrinic et al.: 11, June, 372-381.

Comparison of Fairbanks' Rhyme Test and CID Auditory Test W-22 in Normal and Hearing-Impaired Listeners, Lennart L. Kopra et al.: 11, December, 735-749.

Comparison of Traditional and Condensed Articulation Tests Examining the Same Number of Sounds, Macalyne Fristoe and Ronald Goldman: 11, September, 583-589.

Confusions Among Visually Perceived Consonants, Cletus G. Fisher: 11, December, 796-804.

The Development of Constant Items for Speech Discrimination Testing, Elmer Owens and Earl D. Schubert: 11, September, 656-667.

The Effect of a Conventional Versus a Nonoccluding (CROS-Type) Earmold Upon the Frequency Response of a Hearing Aid, David S. Green and Mark Ross: 11, September, 638-647.

The Effect of Sensori-Neural Hearing Loss on Threshold-Duration Functions, H. N. Wright: 11, December, 842-852.

The Effects of High Gain Amplification on Children in a Residential School for the Deaf, Philip A. Bellefleur and Robert C. Van Dyke: 11, June, 343-347.

Effects of Method of Measurement on Most Comfortable Loudness Level for Speech, Lennart Kopra and Dennis Blosser: 11, September, 497-508.

Effects of Signal Duration and Rise Time on the Auditory Evoked Potential, Paul H. Skinner and Howard C. Jones: 11, June, 301-306.

Familiarity and Intelligibility of Monosyllabic Word Lists, Aubrey Epstein et al.: 11, June, 435-438.

Infant Responses to Recorded Sounds, Maurice I. Mendel: 11, December, 811-816.

Intrasubject Variability in Amplitude of Bekesy Tracings and Its Relation to Measures of Personality, David C. Shepherd and Robert Goldstein: 11, September, 523-535.

Judge Reliability in Infant Testing, John P. Moncur: 11, June, 348-357.

Modified Earpieces and CROS for High Frequency Hearing Losses, Elizabeth Dodds and Earl Harford: 11, March, 204-218.

A Proposed Clinical Test of Speech Discrimination, E. James Kreul et al.: 11, September, 536-552.

The Relation of Vibrator Surface Area and Static Application Force to the Vibrator-to-Head Coupling, E. R. Nilo: 11, December, 805-810.
Responses to Multiple-Choice Intelligibility Tests, John W. Black: 11, September, 453-466.
Signal Detection Audiometry: An Exploratory Study, Richard A. Campbell and Linda K. Moulin: 11, June, 402-410.
Suprathreshold Auditory Adaptation in Normal and Pathologic Ears, Fred Harbert et al.: 11, June, 268-278.
The Type V Bekesy Pattern: The Effects of Loudness Memory, Karl W. Hattler: 11, September, 567-575.
Visual Discrimination of Consonants, Herbert J. Greenberg and Daniel L. Bode: 11, December, 869-874.
Vowel Discrimination of Hearing-Impaired Listeners, Elmer Owens et al.: 11, September, 648-655.

DEAFNESS

The Effects of High Gain Amplification on Children in a Residential School for the Deaf, Philip A. Bellefleur and Robert C. Van Dyke: 11, June, 343-347.
Linguistic Word Classes in the Spoken Language of Normal, Hard-of-Hearing, and Deaf Children, John B. Brannon, Jr.: 11, June, 279-287.
Perceived Nasality in the Speech of the Deaf, Raymond H. Colton and Harry S. Cooker: 11, September, 553-559.
Picture-Sound Association in Deaf Children, Donald G. Doehring: 11, March, 49-62.
Some Possible Effects of the Delay of Early Treatment of Deafness: A Second Look, Lois L. Elliott and Ann B. Vegely: 11, December, 833-836.

PSYCHOACOUSTICS

Averaged Evoked Responses and Loudness: Analysis of Response Estimates, Gretchen B. Henry and Donald C. Teas: 11, June, 334-342.
Clinical Measurement of Temporal Auditory Summation, H. N. Wright: 11, March, 109-127.
A Comparative Evaluation of Five Speech Discrimination Measures, Jean Hahn Lovrinic et al.: 11, June, 372-381.
Comparison of Traditional and Condensed Articulation Tests Examining the Same Number of Sounds, Macalyne Fristoe and Ronald Goldman: 11, September, 583-589.
The Development of Constant Items for Speech Discrimination Testing, Elmer Owens and Earl D. Schubert: 11, September, 656-667.
Differential Sensitivity to Auditory Feedback Delay Intervals: A Preliminary Study, John H. Saxman: 11, September, 595-599.
The Difficulty of Listening to Time-Compressed Speech, Willard R. Zemlin et al.: 11, December, 875-881.
The Effect of Sensori-Neural Hearing Loss on Threshold-Duration Functions, H. N. Wright: 11, December, 842-852.
Effects of Ear Preference and Order Bias on the Reception of Verbal Materials, Richard H. Wilson et al.: 11, September, 509-522.
Effects of Method of Measurement on Most Comfortable Loudness Level for Speech, Lennart L. Kopra and Dennis Blosser: 11, September, 497-508.
Familiarity and Intelligibility of Monosyllabic Word Lists, Aubrey Epstein et al.: 11, June, 435-438.
Intrasubject Variability in Amplitude of Bekesy Tracings and Its Relation to Measures of Personality, David S. Shepherd and Robert Goldstein: 11, September, 523-535.
Masking of Auditory Feedback in Stutterers' Speech, Ronald L. Webster and Bobbie Boyd Lubker: 11, March, 221-222.
Perceiving Steady-State Vowel, Musical, and Meaningless Sounds, J. C. Webster et al.: 11, September, 616-621.
Perception of Auditory Feedback Delay: Subjective Estimate of Delay Magnitude, John H. Saxman and Theodore D. Hanley: 11, December, 861-868.
A Proposed Clinical Test of Speech Discrimination, E. James Kreul et al.: 11, September, 536-552.

Reply to "Masking of Auditory Feedback in Stutterers' Speech," Richard Allen Chase and Samuel Sutton: 11, March, 222-223.
Responses to Multiple-Choice Intelligibility Tests, John W. Black: 11, September, 453-466.
Signal Detection Audiometry: An Exploratory Study, Richard A. Campbell and Linda K. Moulin: 11, June, 402-410.
The Type V Bekesy Pattern: The Effects of Loudness Memory, Karl W. Hattler: 11, September, 567-575.
Unmasking for Pure Tones and Spondees: Interaural Phase and Time Disparities, Raymond Carhart et al.: 11, December, 722-734.
Vowel Discrimination of Hearing-Impaired Listeners, Elmer Owens et al.: 11, September, 648-655.

Language

Aphasia

Phonic Trends in the Writing of Aphasic Patients, Luigi Pizzamiglio and John W. Black: 11, March, 77-84.
Psycholinguistic Aspects of Aphasia, Otfried Spreen: 11, September, 467-480.
Sensory Modality and Object-Naming in Aphasia, Harold Goodglass et al.: 11, September, 488-496.
Visual Discrimination and Response Reversal Learning by Aphasic Subjects, Robert H. Brookshire: 11, December, 677-692.
The Acquisition of English Morphology by Normal and Educable Mentally Retarded Children, Melanie U. Newfield and Bernard B. Schlanger: 11, December, 693-706.
Acquisition of /v/ in "Words" as a Function of the Consistency of /v/ Errors, William P. Baer and Harris Winitz: 11, June, 316-333.
Auditory Sequence Learning in Children, Lois Huffman and Leija McReynolds: 11, March, 179-188.
The Development of Auditory Feedback Monitoring: I. Delayed Auditory Feedback Studies on Infant Cry, John K. Cullen, Jr., et al.: 11, March, 85-93.
The Development of Auditory Feedback Monitoring: II. Delayed Auditory Feedback Studies on the Speech of Children Between Two and Three Years of Age, Grace Yeni-Komshian et al.: 11, June, 307-315.
Development of the Prosodic Features of Infant Vocalizing, W. C. Sheppard and H. L. Lane: 11, March, 94-108.
Discriminative Learning in Children's Acquisition of Phonology, John L. Locke: 11, June, 428-434.
Disturbances in the Perception of Auditory Sequence in Children with Minimal Cerebral Dysfunction, James Aten and James Davis: 11, June, 236-245.
Echolalia, IQ, and the Developmental Dichotomy of Speech and Language Systems, Warren H. Fay and Bruce V. Butler: 11, June, 365-371.
Linguistic Word Classes in the Spoken Language of Normal, Hard-of-Hearing, and Deaf Children, John B. Brannon, Jr.: 11, June, 279-287.
Morphological Structures in the Language of Disadvantaged and Advantaged Children, Thomas H. Shriner and Lynn Miner: 11, September, 605-610.
A Note on Oral Reading, John H. Gilbert: 11, March, 219-221.
Picture-Sound Association in Deaf Children, Donald G. Doehring: 11, March, 49-62.
Some Possible Effects of the Delay of Early Treatment of Deafness: A Second Look, Lois L. Elliott and Ann B. Vegely: 11, December, 833-836.
The Role of Distinctive Features in Children's Acquisition of Phonology, Paula Menyuk: 11, March, 138-146.
Spectrograms and Babbling, Harris Winitz: 11, December, 882.
Three Psychological Scaling Methods Applied to Language Development, Dorothy Sherman and Franklin H. Silverman: 11, December, 837-841.

Speech

Anatomy and Physiology

A Cephalometric Study of Normal and Defective /s/ Articulation and Variations in Incisor Dentition, Bernd Weinberg: 11, June, 288-300.

Duration of Oral Port Constriction in Normal and Cleft Palate Speech, Donald W. Warren and Stephen B. Mackler: 11, June, 391-401.

An Electromyographic Study of Consonant Articulation in Hearing-Impaired and Normal Speakers, Dorothy A. Huntington et al.: 11, March, 147-158.

Electronic Integrator of Measurement of Partitions of the Lung Volume, James C. Hardy and Terry D. Edmonds: 11, December, 777-786.

Instrumentation for Measurement of Lingual Strength, Lois Joan Sanders: 11, March, 189-193.

Lingual Function and Relative Length of the Lingual Frenulum, Samuel G. Fletcher and James R. Meldrum: 11, June, 382-390.

Predicting Cinefluorographic Measures of Velopharyngeal Opening from Lateral Still X-Ray Films, James F. Lubker and Hughlett L. Morris: 11, December, 747-753.

Articulation Disorders

Acquisition of /v/ in "Words" as a Function of the Consistency of /v/ Errors, William P. Baer and Harris Winitz: 11, June, 316-333.

A Cephalometric Study of Normal and Defective /s/ Articulation and Variations in Incisor Dentition, Bernd Weinberg: 11, June, 288-300.

Cleft Palate

Consonant Intelligibility: A Procedure for Evaluating Speech in Oral Cleft Subjects, David Prins and H. Harlan Bloomer: 11, March, 128-137.

Duration of Oral Port Constriction in Normal and Cleft Palate Speech, Donald W. Warren and Stephen B. Mackler: 11, June, 391-401.

Speech and Voice Science

Acquisition of /v/ in "Words as a Function of the Consistency of /v/ Errors, William P. Baer and Harris Winitz: 11, June, 316-333.

Coarticulation of Lip Rounding, Raymond Daniloff and Kenneth Moll: 11, December, 707-721.

Consonant Intelligibility: A Procedure for Evaluating Speech in Oral Cleft Subjects, David Prins and H. Harlan Bloomer: 11, March, 128-137.

The Development of Auditory Feedback Monitoring: I. Delayed Auditory Feedback Studies on Infant Cry, John K. Cullen, Jr., et al.: 11, March, 85-93.

The Development of Auditory Feedback Monitoring: II. Delayed Auditory Feedback Studies on the Speech of Children Between Two and Three Years of Age, Grace Yeni-Komshian et al.: 11, June, 307-315.

The Development of Constant Items for Speech Discrimination Testing, Elmer Owens and Earl D. Schubert: 11, September, 656-667.

Development of the Prosodic Features of Infant Vocalizing, W. C. Sheppard and H. L. Lane: 11, March, 94-108.

Differential Sensitivity to Auditory Feedback Delay Intervals: A Preliminary Study, John H. Saxman: 11, September, 595-599.

The Difficulty of Listening to Time-Compressed Speech, Willard R. Zemlin et al.: 11, December, 875-881.

Duration of Oral Port Constriction in Normal and Cleft Palate Speech, Donald W. Warren and Stephen B. Mackler: 11, June, 391-401.

Effects of Ear Preference and Order Bias on the Reception of Verbal Materials, Richard H. Wilson et al.: 11, September, 509-522.

The Effects of Verbal Stimuli on Disfluencies During Spontaneous Speech, Gerald M. Siegel and Richard R. Martin: 11, June, 358-364.

An Electromyographic Study of Consonant Articulation in Hearing-Impaired and Normal Speakers, Dorothy A. Huntington et al.: 11, March, 147-158.
Electronic Integrator of Measurement of Partitions of the Lung Volume, James C. Hardy and Terry D. Edmonds: 11, December, 777-786.
Fundamental Frequency Investigation of Vocal Fry and Harshness, John F. Michel: 11, September, 590-594.
Instrumentation for Measurement of Lingual Strength, Lois Joan Sanders: 11, March, 189-193.
Lingual Function and Relative Length of the Lingual Frenulum, Samuel G. Fletcher and James R. Meldrum: 11, June, 382-390.
A Methodological Consideration in Kinesthetic Feedback Research, John L. Locke: 11, September, 668-669.
Parameters of Voice Production: I. Some Mechanisms for the Regulation of Pitch, William H. Perkins and Naoaki Yanagihara: 11, June, 246-267.
Perceived Nasality in the Speech of the Deaf, Raymond H. Colton and Harry S. Cooker: 11, September, 553-559.
Perceptual Differentiation of Vocal Fry and Harshness, John F. Michel and Harry Hollien: 11, June, 439-443.
Phonetic Distortions in the Serial Transmission of Short Speech Samples, William R. Tiffany and Delmond N. Bennett: 11, March, 33-48.
Predicting Cinefluorographic Measures of Velopharyngeal Opening from Lateral Still X-Ray Films, James F. Lubker and Hughlett L. Morris: 11, December, 747-753.
Relations Between Prosodic Variables and Emotions in Normal American English Utterances, George L. Huttar: 11, September, 481-487.
Speaking Fundamental Frequency and Rate Characteristics of Adult Female Schizophrenics, John H. Saxman and Kenneth W. Burk: 11, March, 194-203.
Spectrograms and Babbling, Harris Winitz: 11, December, 882.
Testing the Significance of the Agreement Among Observers, Martin A. Young and Tom D. Downs: 11, March, 5-17.
Vocal Fry as a Phonational Register, Harry Hollien and John F. Michel: 11, September, 600-604.
Vowel Discrimination of Hearing-Impaired Listeners, Elmer Owens et al.: 11, September, 648-655.

STUTTERING

Disfluency Behavior of Elementary School Stutterers and Nonstutterers: The Adaptation Effect, Dean E. Williams et al.: 11, September, 622-630.
The Effect of Punishment of Expectancy to Stutter on the Frequencies of Subsequent Expectancies and Stuttering, Richard F. Curlee and William H. Perkins: 11, December, 787-795.
Effects of Physical Training on Stuttering, B. Don Franks and Elizabeth Franks: 11, December, 767-776.
The Effects of Verbal Stimuli on Disfluencies During Spontaneous Speech, Gerald M. Siegel and Richard R. Martin: 11, June, 358-364.
Interrelationships Among Fluency Producing Variables in Stuttered Speech, Ronald L. Webster and Bobbie Boyd Lubker: 11, December, 754-766.
Masking of Auditory Feedback in Stutterers' Speech, Ronald L. Webster and Bobbie Boyd Lubker: 11, March, 221-222.
A Note on Syntactic Relationships in Nonfluency, Elaine P. Hannah and Joanne G. Gardner: 11, December, 853-860.
Pre-Therapy Adaptation of Stuttering and Its Relation to Speech Measures of Therapy Progress, David Prins: 11, December, 740-746.
Primary Stuttering at the Onset of Stuttering: A Reexamination of Data, James R. McDearmon: 11, September, 631-637.
A Proportional Measure of Stuttering Adaptation, Franklin H. Silverman and Dean E. Williams: 11, June, 444-446.

Reply to: "Masking of Auditory Feedback in Stutterers' Speech," Richard Allen Chase and Samuel Sutton: 11, March, 222-223.
Time-Out as a Punishment for Stuttering, Samuel K. Haroldson et al.: 11, September, 560-566.

VOICE DISORDERS

Adolescent Voice Quality Aberrations: Personality and Social Status, John R. Muma et al.: 11, September, 576-582.
Fundamental Frequency Investigation of Vocal Fry and Harshness, John F. Michel: 11, September, 590-594.
Parameters of Voice Production: I. Some Mechanisms for the Regulation of Pitch, William H. Perkins and Naoaki Yanagihara: 11, June, 246-267.
Perceptual Differentiation of Vocal Fry and Harshness, John F. Michel and Harry Hollien: 11, June, 439-443.
Speaking Fundamental Frequency and Rate Characteristics of Adult Female Schizophrenics, John H. Saxman and Kenneth W. Burk: 11, March, 194-203.
Vocal Fry as a Phonational Register, Harry Hollien and John F. Michel: 11, September, 600-604.
